OUTDOOR BLINDS >

WHY CREATIVE OUTDOORS BLINDS?

These days more of our indoor items are becoming outdoor, so protection is paramount for outdoor kitchens, outdoor TVs and furniture.

Imagine being able to host a party, have friends over for a BBQ, or let the kids play outside and no longer be at the mercy of the weather. It may be reason to screen for a bit of privacy, shade, or as a wind barrier.

Blinds come in a choice of fabrics and colours but no matter which ones you choose all offer weather protection, added security and not to mention a newer and more stylish look to your home.

FEATURES

At Creative Outdoors we supply the patented Ziptrak blind system. Ziptrak blinds create a cleaner, neater, longer lasting alfresco living experience.

- ✓ No zippers
- ✓ No ropes
- ✓ No pulleys
- ✓ No Straps or buckles
- ✓ Track Guided
- ✓ Open to selected height

Our blinds are spring loaded and can be operated by one person in one easy action - *Refer image*

New central release bottom bar, fabricated in one piece aluminium. The locking components are fabricated in highly UV resistant polyurethane.

Simple to operate, smooth one hand, no additional locking points with the added strength so no flexing in windy conditions.

CLEAR PVC & SHADEVIEW

Creative Outdoors proudly only deals with extruded Marine Grade PVC, which is a single sheet of thick PVC, as opposed to the more common Calendered PVC, which is two thinner sheets of PVC laminated together. Extruded PVC means better optical clarity and durability and no milky haze that you see in some cafe blinds. (also available tinted to soften the sun's rays).

The Shadeview mesh material consists of 27% rayon thread and 73% PVC. The warp / weft weave means there is only 5% openness thereby reducing the wind, rain, and sun and keeping out 92% of the harmful UV rays.

PELMETS

Finish your alfresco living space off with a half roll or fully enclosed aluminium pelmet powder coated in Colorbond colours. *Refer images*

MANUAL OR REMOTE CONTROLLED

We can also supply you with remote controlled motorised blinds for the ultimate in alfresco living. Conveniently operated at the push of a button, our motorised blinds provide the ultimate in comfortable outdoor living.
